Southern Indiana T. & T. takes rate appeal to federal court, 12–31, 13–38, 14–40, 18–27, 20–36, 23–38.
Successful district meetings in,* 22–26.

Installation hints:
P. B. X. switchboard installation hints,* by J. F. Browne, 9–21.
Preparing subscriber's station installation in advance,* by John A. Bracken, 9–26.

Iowa:
Location of poles along Iowa highways, State supreme court on, 5–28.
New service in Eldon, coal-mining town,* by O. F. Schollenberger, 19–38.
Revenues increased by rebuilding plant in Eldora,* by O. F. Schollenberger, 22–40.
Series of fall district meetings,* 19–23.

J

Joint construction of rural lines,* by W. H. Daubendiek, 22–19.

K

Kansas:
Commission considering advisability of investigating Bell rates, 26–42.
District meetings attract many,* 17–17.

L

Line construction work, Buried dollars in, by Claude L. Matthews, 15–96.
Long distance charges, Responsibility of subscriber for, 21–28.

M

Machine billing of telephone charges,* by T. T. Ferguson, 12–17.
Magneto board with lamp supervision,* by E. G. Eidam, 26–37.
Magneto testing equipment? Why install standard, by T. DeWitt Talmage, 2–24.
Maine: Mutual company with pay stations held to be public utility, 13–40.

Meetings:
Conference of the Class A Independents,* 2–16.
Meeting of state association executives (Nat. conv.), 16–26, 26–40.
Mergers, Small business in this age of,* by Merle Thorpe, 3–17.

Minnesota:
Bell to acquire city of St. Paul, 8–20.
Five district meetings held in southern Minnesota last month, 6–17.
Lanesboro again steps ahead,* by G. O. Wilson, 4–44.
Winnebago's telephone service,* by Jay Houghtaling, 9–31.

Missouri:
Annual telephone convention,* by Stanley R. Edwards, 22–14.
Association completing convention arrangements, 19–24; program includes interesting speakers, 20–20.
Company's $250,000 exchange at Cape Girardeau,* by E. R. Sears, 15–75.
Jefferson City opens new central office,* by P. Winemiller and J. P. Galligan, 23–28.
Laying of underground conduit across Missouri completed, 5–24.
Municipal plant now privately-owned,* by B. L. Fisher, 25–23.
Mutual company with pay stations held to be public utility, 13–40.

N

National Association:
Directors of,* 16–27.
General program for the National Independent convention,* 14–21, 15–39.
Independent industry's annual meeting,* 16–17.

Nebraska:
Company prepares for inaugurating new sales plan, 4–23.
Dial equipment for Wisner, by A. C. Stratton, 12–42.
Financial figures of telephone companies compiled, 4–26.
Signs placed along the voice highways,* 13–17.

New York:
Jamestown exchange called "finest ever,"* by R. H. Burfeind, 17–28.
New York Telephone Co. wins directory damage suit, 1–40.
Toll rates in New York state under investigation, 5–29.
Toll rates on calls over 40 miles reduced 18–26.

North Dakota:
Small town (Rockford) adopts modern service,* by Jay Houghtaling, 12–28.

Engin. Lib Mahr

O

Ohio:
Bryan exchange uses new equipment,* by J. E. Finley, 18–40.
Sweezy properties in receiver's hands, 14–38, 16–24c.

Oklahoma: Three more successful district meetings in Oklahoma, 13–21.

Organization:
Telephone operating organization,* by E. R. Hannibal, 5–14.
Value of organization within industry,* by J. Warren Safford, 6–18.

P

Pennsylvania: Resale of telephone service prohibited, 18–24.

Pioneers, Annual gathering of the Independent,* (Nat. conv.), 16–24.

Plant:
Annual report of the plant division,* by A. L. Stadermann,* (Nat. conv.), 16–32.
Cable faults; how to detect and locate,* by J. W. Deist, 15–49.
Common battery rural service,* by D. B. Corman, 17–14.
Hazardous electrical plant conditions,* by John A. Bracken, 12–20.
Joint construction of rural lines,* by W. H. Daubendiek, 22–19.
Modern youth's opportunity in, by John A. Bracken, 15–56.
Plant division conference discusses toll (Nat. conv.), 16–48.
Testing toll and rural telephone lines, by G. E. Twigg, 11–27.
The "buried" underground cable plant,* by B. C. Burden, 10–16.
Toll line construction requirements,* by H. H. Wheeler, Jr., 20–14.

Plant accounting, Importance of adequate,* by F. A. Burger, 8–14.

Pole line construction:
Estimating the pole lengths and clearances of wire from ground,* 3–21.
Location of poles along Iowa highways, 5–28.

Pole preservation:
Developments in creosoted pine poles,* by R. E. Meyers, 3–23.
Wood preservation and telephone poles,* by C. M. Tilley, 15–88.

Pole strengths adopted by American Standards Association, 26–34.

Police patrol telephones along main highways, Rural,* by C. B. Kugelman, 10–25.

Private branch exchange:
For residences, Dial telephone,* by R. W. Harper, 21–21.
Installations and their importance, by J. R. Spivey, 6–26.
Operating current supply,* by John A. Bracken: The voltaic cell, 17–21, 18–20; voltaic and electrolytic cells, 19–19; the storage battery, 20–21; battery electrolyte, 21–20; battery specific gravity, 22–28, 23–21; hydrometer readings, 24–26; meter test, 25–30, 26–33.
Switchboard installation hints,* by J. F. Browne, 9–21.

Problems of the industry, The general,* by F. B. MacKinnon (Nat. conv.), 16–23.

Program service:
Comparing radio and program service,* by George B. Quatman (Nat. conv.), 25–26.
Conference of program service division (Nat. conv.), 16–31.
Equipment, Latest in amplifiers and loudspeakers, by W. H. Hutter (Nat. conv.), 25–20.
Improvements in Lincoln, Nebr., give program service choice, 13–24.
Multiple program service for small city, by O. C. Levy (Nat. conv.), 25–19.
Report of program service division,* by L. O. Painter (Nat. conv.), 16–54.
Ultimate system for, by Frederic C. Young (Nat. conv.), 25–28.

Progress of Bristol, Va., company, Steady,* by A. U. Meadows, 7–30.

Psychologist tests telephone operators,* by H. T. Dobbins, 6–20.

Publicity:
Correspondence stickers help patrons build telephone trade, 15–54.
Signs placed along the voice highways,* 13–17.
